International Symposium on Concrete and Structures for Next Generation

Ikeda & Otsuki Symposium (IOS2016)

Date: 16-18 May 2016 (18 May: Technical Tour)
Venue: Tokyo Tech Front (Kuramae Kaikan)
(Ookayama, Meguro-ku, Tokyo, Japan)
Organized by: IOS2016 Organizing Committee (Prof. M. Iwanami, Chair)
Managed by: IOS2016 Scientific Committee (Prof. K. Uji, Chair)
Officially supported by: OWICS Conference,
Japan Concrete Institute,
Japan Prestressed Concrete Institute,
Japan Society of Civil Engineers,
Port and Airport Research Institute (Provisional)

The Symposium

Dr. Shoji Ikeda, Professor Emeritus of Yokohama National University, and Dr. Nobuaki Otsuki, Professor of Tokyo Institute of Technology, have contributed to the Conference of OWICS (Our World in Concrete and Structures) for many years, and OWICS Committee dedicated the Conference to Professor Ikeda in 2003 and Professor Otsuki in 2008, respectively. OWICS Conferences have been organized by CI-Premier whose president is Mr. John Tan under the direction of the world-eminent Professor Lee Seng Lip, Professor Emeritus of National Singapore University. Many Japanese engineers and scholars have participated and presented their papers every year so far in the well-known international OWICS Conference which is characterized by friendly, sophisticated and global atmosphere. Moreover, the spirit of OWICS has expanded worldwide to hold various international sister symposia in USA, Portugal, China, Hong Kong and Japan relating to each specific themes.

The initiation of this International Symposium on Concrete and Structures for Next Generation "Ikeda & Otsuki Symposium (IOS2016)" was the proposal of Mr. John Tan who suggested to hold an OWICS related-Symposium in Tokyo as one of the activities of the post 40th anniversary of OWICS in 2015. In addition, the year of 2016 is the year when Professor Otsuki becomes Professor Emeritus.

The world has been rapidly globalized and this fact makes great influence on our domestic and international activities. At this Symposium, the discussions and talking should be in English, therefore, you can experience a genuine global atmosphere as if you were virtually staying in a foreign country, say, in Singapore or other international city. The main purpose of this Symposium is to provide concrete engineers and researchers to develop and enhance their international skills together with the opportunity to exchange their most innovative research and engineering results

We hope that you the concrete engineers who bear next generation agree with the above-mentioned concept and join to make this Symposium fruitful.

Keynote Speakers

Dr. Shoji Ikeda
Emeritus Professor of
Yokohama National University, Japan

Dr. Nobuaki Otsuki
Professor of
Tokyo Institute of Technology, Japan

Program Outline

16 May 2016 (Monday)

Opening Ceremony

Keynote Lecture: Prof. Shoji Ikeda (Yokohama National University, Japan)
Prof. Nobuaki Otsuki (Tokyo Institute of Technology, Japan)

Invited Lecture Prof. C. T. Tam (National University of Singapore)
Prof. Gary K. C. Ong (National University of Singapore)

General Presentation

Banquet at Futakotamagawa Excel Hotel Tokyu

17 May 2016 (Tuesday)

General Presentation

Closing Ceremony

18 May 2016 (Wednesday)

Technical Tour (Fieldtrip nearby Tokyo)

Call for Papers

Themes and Topics: Durability of Concrete Structures, Maintenance and Repair, Reinforced Concrete Structures, Prestressed Concrete Structures, Hybrid Structures, Environmental Material, Repair Material, Earthquake Resistance, Seismic Retrofitting, Disaster Prevention, etc.

Important Date: Submission of Abstract: January 2016
Submission of Full Paper: March 2016

Conference Fee

Conference Fee: 30000 JPY (tentative)

Technical Tour Fee: 3000 JPY (tentative)

Organization and Contact

IOS2016 Organizing Committee Chairperson:

Dr. Mitsuyasu Iwanami, Professor of Tokyo Institute of Technology, Japan

IOS2016 Scientific Committee Chairperson:

Dr. Kimitaka Uji, Professor of Tokyo Metropolitan University, Japan

IOS2016 Official Website: <http://maintenance.cv.titech.ac.jp/english/>

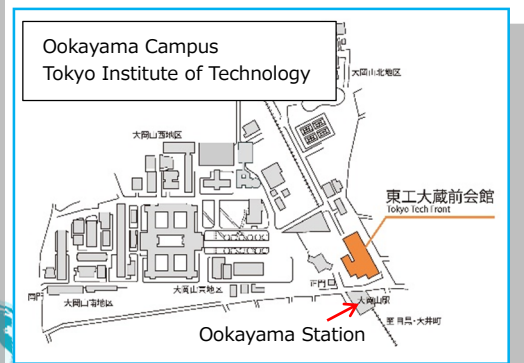

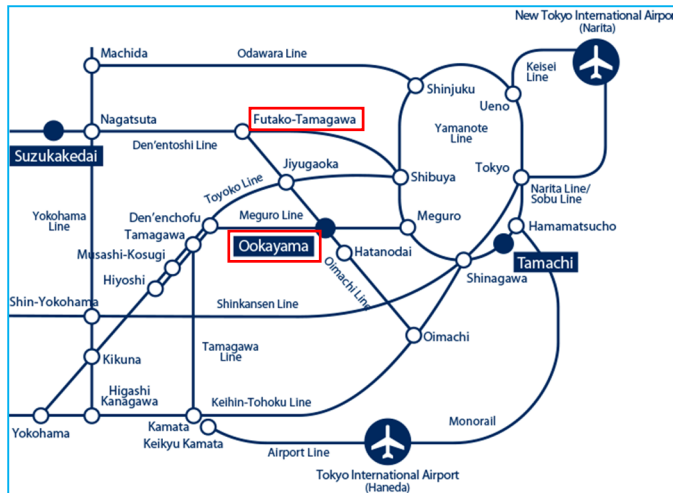

Organizing Committee Secretariat: ios2016@cv.titech.ac.jp

Venue: Tokyo Tech Front (Kuramae Kaikan)

Tokyo Tech Front (Kuramae Kaikan)

On Ookayama Campus in Tokyo Institute of Technology
2-12-1, Ookayama, Meguro-ku, Tokyo 152-0033 JAPAN

Access: Ookayama Station, Tokyu Meguro Line and Tokyu Oimachi Line

Technical Tour on 18 May 2016

Technical tour on epoch-making construction projects and on Japanese culture will be scheduled.
Please wait for further information.

Tokyo Sky Tree
(634m height)

Sensoji Temple
